

METACOGNITION ACTIVITY

Stage 5: Linear Equation Systems

Directions: In the following question you will reflect about what you learned during this stage and which things you need a reinforcement to improve your knowledge. Answer this with honesty and write a mark ✓ in each question

	Questions	Yes	No
Knowledge	1. I can locate coordinates in a Cartesian plane:		
	2. I can plot the graph of linear equations with two variables		
	3. I can locate the intersection of two lines in the Cartesian plane		
	4. I can identify a system of 2 linear equations with 2 unknowns:		
	5. I know the analytical methods to solve linear equations systems:		
	6. I know the procedure to follow in each analytical method:		
	7. I know how to locate the solution set of linear equation systems using the graphical method:		
	8. I know how to represent the relationship between the data and the unknown by systems of equations in problems applied to life situations:		
	9. I know how to interpret of the problems of daily life are interpreted in the context of the same:		
Skills and abilities	1. I can locate coordinates in a Cartesian plane:		
	2. I know how to sketch the graph of linear equations with two variables		
	3. I know how to locate in the Cartesian plane the intersection of two lines		
	4. I can apply the analytical methods to solve linear equations systems:		
	The addition and subtraction method:		
	The substitution method:		
	5. In models of linear equations systems, I solve them to find their results:		
	6. I can interpret the results:		
Attitudes and values	1. I worked hard in everything seen in this stage.		
	2. I made an effort to understand and carry out each of the proposed activities		
	3. I spend an extra class time to study:		
	It was regular and constant		
	Few time		
	4. When I had doubts, I consult different sources of information:		
	check other books		
	check internet		
	I limited to the book		
	I lack of disposition		
	5. I collaborated with my classmates and participated in the activities of the group:		
	when they asked me		
	It was it difficult for me to become an academic		
	Total Sum		

Points in which part of the light is the addition of the "yes" and consider that is the score is red is important to make a reflection cause is an opportunity area that you need to perform in the next stage.

Good	21 to 28	Regular	Between 11 to 20	Weak	Less than 10
------	----------	---------	------------------	------	--------------
